Strengthen Medical Surge Allocations

Purpose and Methodology

Purpose

Strengthen Medical Surge and Mass Prophylaxis Capabilities: DHS Funded Activities highlights major state, urban area, regional, local and territory initiatives designed to establish or enhance the medical surge and mass prophylaxis capabilities which are funded with Department of Homeland Security grant programs including, but not limited to, the Homeland Security Grant Program (HSGP) and the Urban Area Security Initiative (UASI).

National Priority

Strengthen Medical Surge
and Mass Prophylaxis
Capabilities

Methodology

The projects described in this report have been reported directly to the Department of Homeland Security Federal Emergency Management Agency by state and local users of the Grants Reporting Tool (GRT) through the submission of their Bi-annual Strategy Implementation Report (BSIR).

Project type searches were performed on the fiscal years 2004, 2005, 2006 and 2007 BSIRs from the December 2007 calendar year submission. This report displays only the following Project Types: Build/enhance a pharmaceutical stockpile and/or distribution network; Enhance integration of metropolitan area public health / medical and emergency management capabilities; Establish / enhance mass care shelter and alternative medical facilities operations; and Establish/enhance a public health surveillance system. Previous submissions were used for the states and territories shown below due to the status of those submissions at the time of this report. FY 2004 Dec 2006: CO, DC, MD, and PR. FY 2004 June 07: ME. FY 2005 Dec 2006: PR. FY 2006 June 2007: PR. The following states are not in Approved by FEMA or Submitted to FEMA status at the time of this report for Fiscal Year 2007: MD and PR. The data is subject to change before approval.

From this keyword search report, project titles, types, descriptions and other details were extracted to provide the narrative State Summaries provided herein.

For more information on the sources as well as specific caveats to the data contained in this report, see the section entitled "Notes and Sources."

Methodology

Strengthen Medical Surge and Mass Prophylaxis Capabilities Allocations State Summary

Strengthen Medical Surge and Mass Prophylaxis Capabilities: DHS Funded Activities Allocation Summary by state and territory for Fiscal Years 2004, 2005, 2006 and 2007.

State	FY 2004	FY 2005	FY 2006	FY 2007	Total
Alabama	\$54,126.00	\$1,711,676.00	\$1,405,854.00	\$1,708,354.00	\$4,880,010.00
Alaska	\$0.00	\$224,327.70	\$322,617.96	\$210,431.96	\$757,377.62

Fiscal Year 2004	\$54,126.00
Fiscal Year 2005	\$1,711,676.00
Fiscal Year 2006	\$1,405,854.00
Fiscal Year 2007	\$1,708,354.00
Total	\$4,880,010.00

Current Initiatives

Project Title: Heflin Fire Service Manual Defibrillator

Project Description: Manual defibrillator will assist Heflin Fire Service in managing cardiac related emergencies in a predictable and timely manner in response to possible CBRNE incidents at the advanced life support level. Current equipment with rapidly exhausting lifespan will be replaced. New equipment will be located in lead Rescue Truck. Heflin Fire is ALS certified and carries cardiac medication aboard their rescue truck.

2004 Funding: \$11,848.00

Project Title: Mass Casualty Management

Project Description: Equip and train Lawrence County Fire Rescue personnel to respond to incidents involving mass casualties. Purchase supplies for MCI trailer.

2005 Funding: \$17,000.00

Project Title: MMRS

Project Description: Provide assistance for medical mass casualty relief centers.

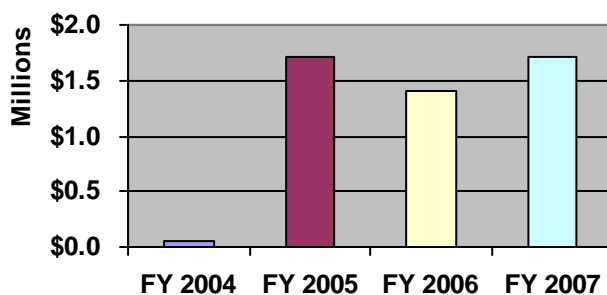

2006 Funding: \$220,713.50

Project Title: Medical Supplies

Project Description: Sustain and enhance the state's pharmaceutical caches, medical supply/equipment, and storage capabilities

2007 Funding: \$250,000.00

Strengthen Medical Surge and Mass Prophylaxis Capabilities: DHS Funded Activities – Alaska

Homeland Security Grant Program and UASI Allocations	
Fiscal Year 2004	\$0.00
Fiscal Year 2005	\$224,327.70
Fiscal Year 2006	\$322,617.96
Fiscal Year 2007	\$210,431.96
Total	\$757,377.62

Current Initiatives

Project Title: Patient Care Records Management System

Project Description: The Municipality of Anchorage (MOA) anticipates fundamental improvements to emergency planning and management efforts with the implementation of an improved records management and tracking system. Improvements to EMS patient care record management will enhance response to mass casualty incidents while improving routine EMS operations. The improvements will extend to mass casualty patient

tracking and biosurveillance-syndromic sentinel health event tracking and notification.

2005 Funding: \$221,902.20

Project Title: Shelter Operations Exercise

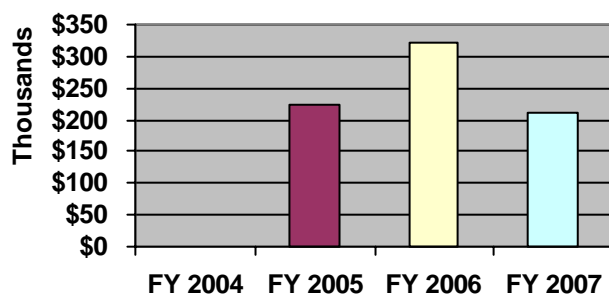

Project Description: This project will consist of activation of the local shelter plan. This exercise will test the ability to stand up the shelter as part of an event response, test planned staffing, acquisition and use of food, water and other supplies, test the emergency response capabilities of the community to provide security, fire safety, medical and public health as part of shelter operations.

2006 Funding: \$10,500.00

Project Title: Electronic Patient Tracking

Project Description: This project will extend the capability of the Electronic Patient Tracking Project started in the 2005 and 2006 MMRS grants. This project will add a third phase to the project to: add internet connectivity to field deployed tablet PCs, extend biosurveillance of Anchorage

Homeland Security Grant Program and UASI Allocations

Fire Department Computer Aided Dispatch and notification/alerting of public health threats and WMD events by extending monitoring capability to area hospital and law enforcement data sources and extend notification of First Watch (biosurveillance) information to key personnel in multiple agencies.

2007 Funding: \$123,860.68

Project Title: Ambulance / Hospital Interface

Project Description: This project will improve the interoperable communications between ambulances and the hospitals. The primary purpose of this project is to enhance the operational response capabilities of the MMRS in SEAK by improving Medical Surge, Triage, pre-hospital treatment, and WMD / hazardous materials response and decontamination.

2007 Funding: \$21,826.61

Current Initiatives

Project Title: Hospital Interoperability Communications upgrade for Cochise County EM and the City of Sierra Vista /SHSP

Project Description: Replace existing radio system with multi-channel radios to provide enhanced communications capabilities with the five health center/hospitals.

2004 Funding: \$149,842.00

Project Title: Eager FD Emergency Mass Casualty and Decon Project

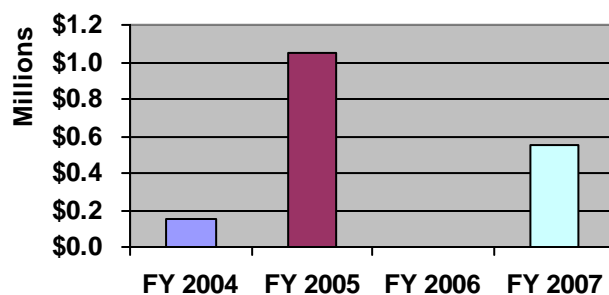

Project Description: Eager FD Emergency Mass Casualty and Decon Project

2005 Funding: \$62,725.16

Project Title: MMRS Tucson Fire Department

Project Description: This project will support regional training efforts and help establish standardized training in our region. Training will also help to increase our regions pool of hazardous materials technicians and technical rescue personnel and support RRT training. This program will help fund training exercises for our region, which enhance our abilities to support the State and National Strategic Plans. This program will also help support the Medical Reserve Corp. The MRC will be able to continue their training and recruitment to increase their abilities and support our region. This program will also help support our management and administrative duties needed to support the MMRS program.

Homeland Security Grant Program and UASI Allocations

2007 Funding: \$258,145.25

Project Title: Enhance Local Emergency Management/Response Planning

Project Description: The City of Sierra Vista Department of Public Works will purchase one 300kW Diesel Generator as part of the City's preplanning response strategy to provide contingency evacuee shelters, satellite communication and staging centers. The acquisition of emergency portable generators for identified public shelter buildings will enhance operating efficiency and facility safety.

2007 Funding: \$100,000.00

Fiscal Year 2007	\$12,824,644.00
Total	\$39,757,508.62

Current Initiatives

Project Title: Build/enhance a pharmaceutical stockpile and distribution network

Project Description: Purchase, and have at clinics and/or mobile trailer, antidotes and specialized materials that could be used in the event of a terrorist attack. If necessary, train personnel on different types of pharmaceuticals that might be needed for terrorist attacks.

2004 Funding: \$15,557.00

Project Title: Project E- Establish/Enhance Public Health Surveillance system

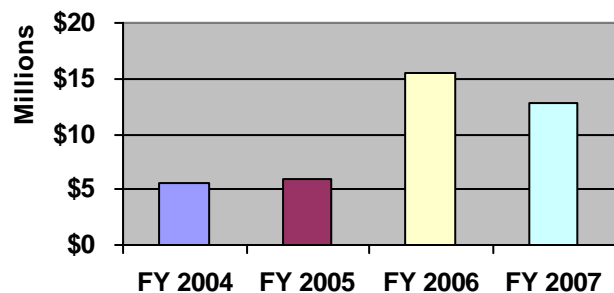

Project Description: Continue to enhance public health surveillance system with the purchase of radiological survey equipment and specialized staff to respond to bioterrorism attack.

2005 Funding: \$678,684.00

Project Title: PROJECT D: Medical Surge

Project Description: Projects include 1) Regional standardized training, credentialing and procedures, modeled on the concepts of the Standardized Emergency Management System and the mutual aid system 2) Regional planning for the movement of patients between jurisdictions 3) Development of a new patient tracking system 4) Procedures for the procurement and movement of resources to support

Homeland Security Grant Program and UASI Allocations

medical surge 5) Develop an improved method for a volunteer database

2006 Funding: \$804,500.00

Project Title: Project M - Mass Prophylaxis and Medical Surge

Project Description: This investment will provide a means to prophylaxis first responders and their families in the event of a bioterrorism attack of disease outbreak and will support protection of the community at large. The storage will be used to receive, manage, distribute and store medicine and medical supplies. This facility provides critical support to the region in the event of a disaster or disease outbreak. The need to obtain Mark1- NAAK Kits for Law Enforcement and First Responders will provide a means to rapid intervention to first responders during a nerve agent attack or organophosphate chemical spill. This project will include the purchase of equipment and supplies.

2006 Funding: \$2,999,998.00

Project Title: NCR Syndromic Surveillance Network

Project Description: The National Capital Region Syndromic Surveillance Network (NCRSSN) needs system strengthening in order to transition a sustainable system to local jurisdictions. This will include studies that direct the classification and utilization of data, tools to improve the ease of operations, and additional refinements to ensure that the NCR has the most-up-to-date disease surveillance capability for bioterrorism agents and communicable diseases. FY06 funds will continue the operation and maintenance of the NCR and state-based surveillance sites, improve the sensitivity and specificity, ease of system use, and enhance capability with traditional surveillance tools. These capabilities will significantly strengthen the system and foster a higher degree of system independence and sustainability for local and State governments.

Project Title: Enhance integration of metropolitan area public health/medical and emergency management capabilities

Project Description: MMRS project development to enhance integration of metropolitan area public health/medical and emergency management capabilities, includes the following components: development of plans and operation guidelines for mass casualty

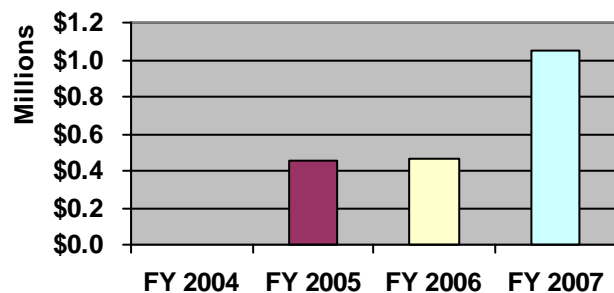

events; increased levels of personnel completing training and education sessions; sponsorship and participation in local, regional and statewide exercises; procurement of equipment, medications, and supplies; enhancement of communications and IT systems, and support of public information plans and systems.

2005 Funding: \$227,592.00

Project Title: FY 06 MMRS Grant South Central Kansas MMRS

Project Description: With the FY06 MMRS Grant, Sedgwick County has determined the best way to ensure a proper response to a mass casualty incident is to employ a regional response. Therefore, Sedgwick County has formally expanded its coverage of the grant to a 19 county region and has changed the name to the South Central Kansas MMRS (SCKMMRS), to more appropriately define the mission. In FY 06, SCKMMRS has decided to focus on five specific areas to meet the grant requirements. Those areas are as follows: 1. Regional Assessment (Risk, Resources and Personnel) 2. Operationalization of MMRS Plans 3.

Homeland Security Grant Program and UASI Allocations

Credentialing 4. Patient Tracking 5. Surge Capacity SCKMMRS will continue to operate under a Steering Committee structure with the five above mentioned items being used to form sub-committees to address the plans and grant requirement.

2006 Funding: \$232,330.00

Project Title: Enhance Integration of Metropolitan Area Public Health/Medical and Emergency Management Capabilities

Project Description: To work with the Kansas City, MO MMRS to make sure that we integrate our plans that are mainly our medical resources in the greater Kansas City area. Then reach out to additional counties in the metropolitan area. Branch out to an additional detail work for the mass prophylaxis. This includes establishing and laying out sites with details for planning, assessment, analysis and security. Ensure that all MMRS plans conform to NIMS and our State Public Health Guidelines.

2007 Funding: \$258,145.00

Project Title: Mass Casualty Vehicle

Project Description: Develop and outfit a former school bus into a Mass Casualty transport vehicle. This unit would be able to transport both ambulatory and non-ambulatory personnel. It would have items such as oxygen, heat, air, cots, backboards, and other items to help transport people to safety and additional care.

Total	\$11,985,041.87

Current Initiatives

Project Title: Establish/Enhance Mass Casualty Incident Response
Project Description: Enhance public health and hospitals' ability to coordinate, manage, and respond to a Critical Incident involving mass casualties incorporating fatality recovery response (Goal 8).
2004 Funding: \$1,160,966.97

Project Title: Patient Tracking

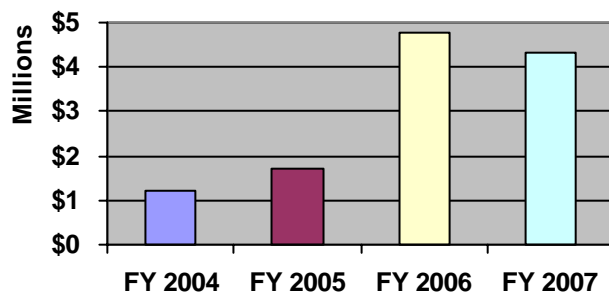

Project Description: Patient tracking system that tracks patients from the scene of an incident to the hospital and then to the final disposition or family reunification.

2005 Funding: \$113,502.37

Project Title: Hospitals Surge Capacity

Project Description: This initiative will allow for the rapid expansion of the capacity to provide triage & medical care by hospitals. It will expand the existing Patient Tracking system to outlying counties. Hospital surge capacity is a priority based on the fact that personnel, equipment & medical supplies are all limited resources for hospitals. Although hospitals have made strides in securing alternate care sites through community resources, this does not provide any medical equipment or supplies to provide even basic patient care. STARRS has begun to ameliorate the medical supplies issues with funding from HRSA in fiscal years 03 & 04, but more needs to be done. More hospitals in rural areas need supplies as do hospitals

Homeland Security Grant Program and UASI Allocations

in the metro east area (IL) which do not receive HRSA funding through STARRS.

Project Title: Build/enhance a pharmaceutical stockpile and distribution network

Project Description: Provide Gordon Volunteer Rescue Squad advanced medical care equipment and supplies.

2004 Funding: \$2,577.98

Project Title: Mass Casualty Supplies for Regional Medical Stockpile

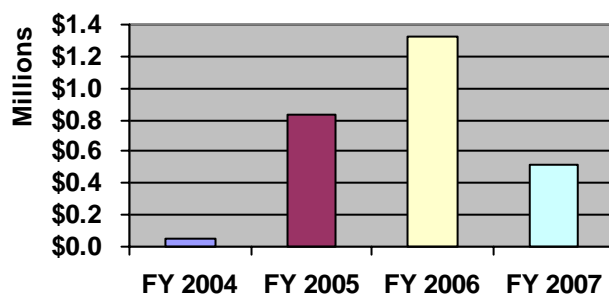

Project Description: This project is a 4-county (1 health district) collaborative effort to maintain medical stockpiles that can be used for the first 24-48 hours of a public health emergency (e.g., bioterrorism) or mass trauma incident (e.g., chemical or bomb incident). Adams, Clay, Nuckolls and Webster counties and the South Heartland District Health Department are requesting continuation funding in support of mass casualty supplies for Tier 2 of their stockpile plan and for the exercise plan leading up to and including the Terrex '05 Full Scale Exercise (see attached project description).

2005 Funding: \$10,473.00

Project Title: Enhance shortfalls of equipment in Medical Surge Capacity

Project Description: This grant addresses shortcomings of equipment that were identified in a recent Mass Casualty Chemical Release exercise. The equipment has also been identified by the Tri-City Medical Response System (TRIMERS) as equipment that would greatly be needed when called for Medical Surge

Homeland Security Grant Program and UASI Allocations

Capability or Mass Prophylaxis Clinic were needed in the Region not just Adams County. This equipment was also identified in the 2005 Exercise with the needs of the MCI Incident. This project is to provide additional radios that would be needed in a Hospital Medical Surge due to bioterrorism, pandemic, or MCI Incident. These same radios would be used in a Mass Prophylaxis incident as well to have communication between the NIMS Command and General Staff. The tent is to provide some protection for the overflow that could not be taken into the Hospital in the first waves, or the dispensing clinics.

2006 Funding: \$21,100.00

Project Title: Omaha MMRS Enhanced All Hazard Response, Evacuation & Pandemic Planning

Project Description: OMMRS is a multi-disciplinary group of agencies and organizations collaborating to identify/assess/resolve gaps and enhance current community plans and capabilities. FY 2006 MMRS funding provides metropolitan area hospitals with equipment and supplies enhancing capabilities for decontamination, evacuation and mass care. The FY 2006 MMRS grant as approved in January 2007 is currently in the process of being utilized. FY 2007 MMRS funding is requested for additional equipment, resources and supplies to support agencies/organizations in their efforts to prevent, protect against, respond to, and recover from threats or incidents of terrorism, natural disaster and major emergencies.

Project Title: Development of the Northern New England MMRS

Project Description: The Northern New England MMRS functions as a coordinating resource in responding to the health and medical consequences of a weapon of mass destruction attack impacting Maine, New Hampshire, or Vermont. The NNE MMRS also serves as a resource for other mass casualty events or significant outbreaks in the region, including serving as a structure to help local communities take advantage of arriving federal assets. The NNE MMRS has four essential elements: 1. it is a

mechanism for coordinated needs assessments, planning, education, training, and exercising in Maine, New Hampshire and Vermont; 2. it is available as a support mechanism for coordination of state-to-state activities in cross-border response in regional emergency operations; 3. pharmaceutical cache, divided among the three states; 4. medical strike team in each state.

Project Title: Medical Supplies
Project Description: Pulsox meters
2004 Funding: \$1,782.31

Project Title: Implement the Medical Response System Initiatives
Project Description: Enable the City of Cleveland and the surrounding communities to prepare to respond to a range of mass casualty incidents to include but not limited to developing plans, conduct training, purchase equipment and pharmaceuticals, and conduct exercises related to catastrophic incidents, whether terrorist or natural disaster.

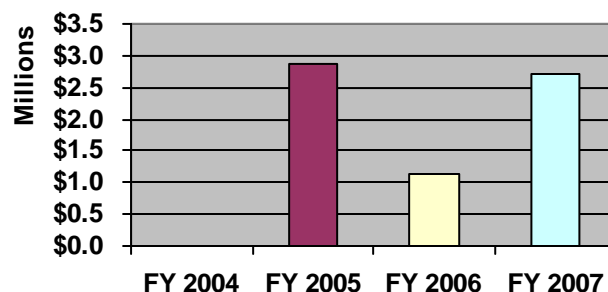

2005 Funding: \$227,592.00

Project Title: Creation of 14 Multi-Purpose Alternative Care Centers

Project Description: This project will provide up to 14 additional multi-purpose shelters-care centers to the region. The shelters will be portable sites for mass prophylaxis across the region, and enable medical support to the public in areas where the population is unable to get to designated permanent facilities.

Additionally, they can be used to augment hospital capacity as an external triage resources or limited alternative care facilities. Since four of the five counties in the region have significant rural populations and smaller local hospitals, the purchase these shelters will be a first step in strengthening the region's ability

Homeland Security Grant Program and UASI Allocations

under medical surge. The portability and ease of setup is the key; they will provide an initial solution until more permanent equipment or locations can be found.

2006 Funding: \$232,330.00

Project Title: Medical Reserve Corps (MRC)

Project Description: The FY07 MMRS Planning scope and intent is directly related to the current state and continuation of FY06 MRC work. MMRS funds will be used to continue in the efforts establishing a well equipped MRC. It was anticipated that the organization phase of the Medical Reserve Corps will take approximately five years. This phase will target additional recruitment and training of an organized volunteer base that is capable of responding appropriately to an incident that exceeds the capability of the regional healthcare community. The management of volunteers requires redundant training opportunities that will provide multiple sessions that volunteers can attend between existing commitments. It also requires continuous management of contact information, credentials, and training within the three state, twenty-one county region, which the Medical Reserve Corps represents.

Fiscal Year 2007	\$0.00
Total	\$361,442.00

Current Initiatives

Project Title: Establish emergency medical mobile triage

Project Description: Procure and deploy mobile emergency medical equipment in strategic municipal medical facilities capable of being transported to any WDM triage for temporary treatment and

stabilization of victims in a terrorism incident.

2004 Funding: \$169,000.00

Project Title: Establish/enhance a public health surveillance system

Project Description: Development and deployment of a network of computerized monitoring stations in all San Juan Municipal Medical facilities, with the capabilities to monitor epidemiological events and census abnormalities.

2004 Funding: \$81,242.00

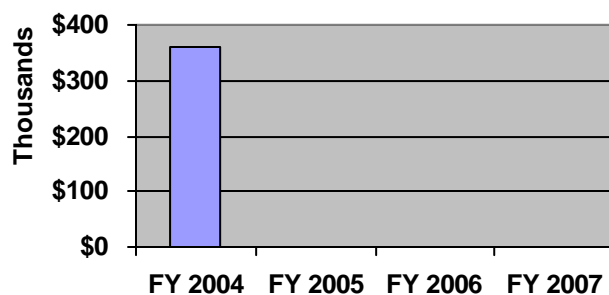

Project Title: Establish/enhance a public health surveillance system

Project Description: PRASA is the only chlorine gas distributor for the whole water treatment system in Puerto Rico (potable and sewer).

To improve the security to the chlorine distribution trucking system we will install an electronic identifier to each chlorine cylinder, a global position system to each chlorine truck and enhance the communications between dispatcher and the truck driver by installing a reliable communication system

2004 Funding: \$111,200.00

Project Title: Enhance integration of metropolitan area public health / medical and emergency management capabilities

Project Description: Enhance integration of metropolitan area public health / medical and emergency management capabilities

2004 Funding: \$854,286.28

Project Title: Chempack Transport/Technical Rescue vehicle

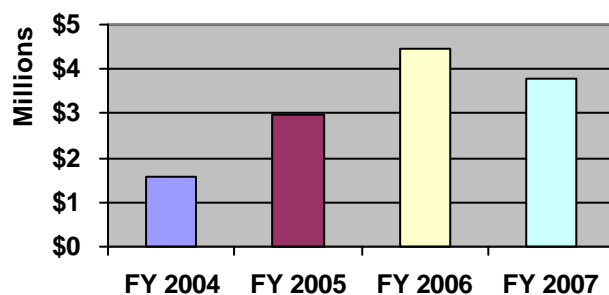

Project Description: The intent of this package is to develop a vehicle that would allow one or more ChemPack containers to be storage in a configuration that allows immediate deployment without having to load them onto another vehicle. Additionally, this vehicle will be used to carry the technical search equipment used by EMS as part of the collapse search and rescue package from 2004 as well as mass casualty supplies and will replace the current EMS Support 1 Unit. This package also includes the addition of PAPR respiratory protection for long term operations in chemical, biological, and radiological contaminated environments.

2005 Funding: \$326,384.00

Project Title: Enhance Integration of metropolitan area public health/medical and emergency management capabilities

Project Description: Strengthen/enhance Interoperable Communication Capabilities and Expend Regional Collaboration. Effective coordination and integration between agencies during a catastrophic event; procedures that are compliant to the

Homeland Security Grant Program and UASI Allocations

NIMS/ICS management system; an effective system of communication between local, regional and state agencies; establish an effective system for developing resources, medical staff and volunteers; an effective system of training; protection for facilities, personnel and non-incident patients from the effects of the hazard while providing optimal care to incident victims and the development of contingency plans that incorporate strategies and tactics to be used when a specific issue or event occurs during the course of any disaster operations.

2006 Funding: \$138,936.00

Current Initiatives

Project Title: Build/enhance a pharmaceutical stockpile
Project Description: SHSP funds will be used to provide \$14,950 toward the purchase of backup generators for two rural medical centers and \$13,222.77 toward the purchase of a generator at the local Health department which will be used as pharmaceutical

distribution sites in the event of a bioterrorist event.

2004 Funding: \$28,172.77

Project Title: Response Equipment

Project Description: Bisected by a major interstate highway, located between two metropolitan areas, and an overflow shelter for Surry Nuclear Power Plant evacuations, New Kent County has a large potential for mass casualty/care and major medical response incidents. Although the potential for these incidents is great, the ability to respond to them is minimal. This project would provide for basic equipment to begin to handle these incidents until regional, state, or federal resources could respond.

2005 Funding: \$15,647.00

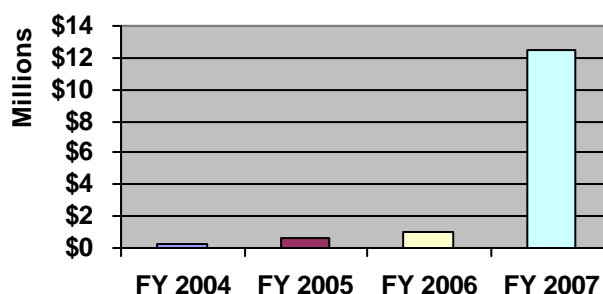

Project Title: Purchase generators for medical special needs shelters

Project Description: Purchase generators for medically-friendly shelters or medical area in general shelters for 2 jurisdictions.

2006 Funding: \$194,000.00

Project Title: SHSP Projects to be distributed to localities

Current Initiatives

Project Title: Protective Gear, Decontamination and Isolation Capacity

Project Description: This request would provide adequate shelter for patients awaiting decontamination during inclement weather. Provide adequate shelter for staff & patients in case of evacuation of the medical center due to terrorist incident. This request includes 3 collapsible, reusable shelters, 3 heating units and lighting for shelters, and propane

gas for heating units (\$60,000), Provide for additional PAPRs to provide adequate protection for UWMC healthcare workers in case of a bio-terrorism attack. This includes 20 PAPR blower units, 4 five-port chargers, 25 hoses, 10 boxes of 25 disposable hoods and TYVEK™ suits (\$17,000), And provide the ability to transport communicable disease patients / victims of bio-terrorism without putting the remainder of the hospital population at risk. Specifically, the request includes 3 portable HEPA filtered transport units (\$8,000)

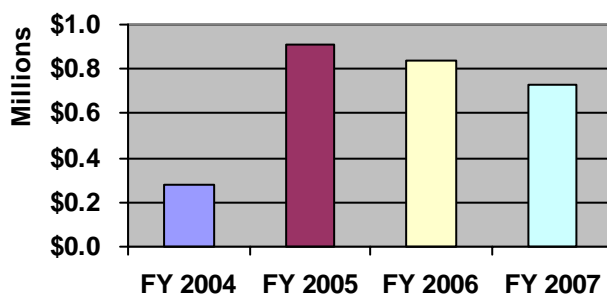

2004 Funding: \$82,450.00

Project Title: Pharmaceutical Cache Management and Status Reporting

Project Description: Responder

Prophylaxis (Mark 1 kits, biological agent antibiotics and their training) Receipt of the Strategic National Stockpile (SNS) - work with Seattle King County Public Health (SKCPH) in the logistics of the receipt of the SNS Distribution of the SNS - Work with SKCPH in the logistics of the distribution and dispensing of the SNS. Management of the Chempack program and

Homeland Security Grant Program and UASI Allocations

associated training and administrative cost to maintain the program.

2005 Funding: \$40,000.00

Project Title: MMRS sustainment and enhancement

Project Description: In the Tacoma-Pierce County MMRS jurisdiction, FY06 funds will be invested to: • Support achievement of preparedness in two MMRS-related Capability Focus Areas identified nationally and by the State and the region as highest priority o Medical Surge o Mass Prophylaxis • Revise the current MMRS operational plan to reflect the— o Emerging State and Urban Area Homeland Security Assessments and Strategies o Broadened scope of MMRS mass casualty response to include epidemic disease outbreak, natural disaster and/or HazMat accident as well as WMD incidents • Sustain the MMRS capabilities established through the completion of baseline deliverables and other previous activities supported by Federal funding.

2006 Funding: \$225,361.00

Project Title: FFY07SHSP - Regional Mass Care and Shelter Plan, Phase II - Backup Power

Project Description: One of the identified gaps for ESF 6 and ESF 11 is a shortage in shelter facilities capable of sheltering large numbers of people and/or operations consistent with a catastrophic regional power outage resulting from a CBRNE or natural event. This proposal will purchase two trailer mounted generators and install one permanent generator. By March '08, 9 transfer switches will be installed at zone designated shelter sites with three going to each zone. These portable generators will be plug and play to those sites. The permanent generator is installed at the King County Aquatic Center. This site has been identified as possible alternate location for COG planning, a regional shelter, or as a medical surge point of distribution. All of the feasibility and design work for KCAC was completed by other funding

Grant Programs Included in this report: Citizen Corps Program (CCP), Law Enforcement Terrorism Prevention Program (LETPP), State Homeland Security Program (SHSP), Urban Area Security Initiative (UASI), Transit Security Program (TSP), Emergency Management Performance Grant (EMPG), Emergency Management Performance Grant Supplemental (EMPGSUP), Metropolitan Medical Response System (MMRS), Buffer Zone Protection Program (BZPP), Transit Security Grant Program (TSGP), Operation Stonegarden Grant Program (OSGP), Transit Security Grant Program Supplemental (TSGPSUP), Transit Security Grant Program Ferry (TSGPF), and Public Safety Interoperable Communications Grant Program (PSIC).

The projects from fiscal years 2004, 2005 2006 and 2007 described in this report are selected from the following Project Types: Build/enhance a pharmaceutical stockpile and/or distribution network; Enhance integration of metropolitan area public health / medical and emergency management capabilities; Establish / enhance mass care shelter and alternative medical facilities operations; and Establish/enhance a public health surveillance system. Previous submissions were used for states and territories shown below due to the status of those submissions at the time of this report. FY 2004 Dec 2006: CO, DC, MD, and PR. FY 2004 June 07: ME. FY 2005 Dec 2006: PR. FY 2006 June 2007: PR. The following states and territories were not in Approved by FEMA or Submitted to FEMA status at the time of this report for Fiscal Year 2007: MD and PR. The data is subject to change before approval.

Fiscal years 2004, 2005, 2006 and 2007 project data contained in this report is directly gathered from information loaded into the Grants Reporting Tool (GRT) by users as of 27 March 2008. This information is subject to change at any moment per updates to the GRT by users.
